You will leave with a head full of knowledge and some really good ideas of how to achieve your newly defined waste goals!

It is not really a Workshop as such – they are generally rather boring! It is more a fusion of Waste Industry insights combined with dry observational humour and good sized twists of really good advice culminating with all attendees learning everything they need to know to make the most of the opportunities out there for organisations that want to use waste management techniques to their advantage. Join us at one the locations below to make sure that your company has the expertise on board to leverage the benefits of a sound waste management program.

- ***The Smoke & Mirrors' of Recycling***
- ***What do we do with each waste stream?***
- ***Why we use black bags***
- ***The REAL costs of waste and why where there's muck there's brass***
- ***Potential Rebates and benefits for sustainable companies***
- ***How to reduce your waste costs simply and effectively***
- ***Is Cardboard & Plastic worth baling?***
- ***What happens to our waste?***
- ***How to boost your company's profile***

Get the knowledge you need to succeed for just £125 (plus VAT) for each attendee. Price includes refreshments on the day and parking is available at all venues.

But, make sure to book your place today, as these events sell out quickly.
